

C.T. SCAN

Sinus

No preparation needed.

Brain/Chest/Extremities (Non-contrast)

No preparation needed.

Brain/Chest/Neck (With contrast)

4 hours NPO (nothing by mouth) prior the examination. Medication with small amount of water is allowed.

Abdomen Only (Includes Liver/Pancrea/Kidney)

4 hours NPO (nothing by mouth) prior the examination. Drink the oral contrast (you may pick-up this at the Radiology department any day prior to your appointment) 1 hour prior to the examination. Medication with a small amount of water is allowed.

Abdomen and Pelvis

Same preparation as abdomen scan only except the oral contrast needs to be ingested 2 hours prior to your examination.
